

ALL CLASSES \$100 –THIS MONTH!

Chicago Fire Arts Center

Beginning Jewelry & Metalsmithing

Instructor: Kristian Damholt

6:30-9:30pm

\$100 for 4 weeks

Classes are limited to 5 students

An accelerated hands-on introduction to jewelry making and metalsmithing, students will complete a project and choose to learn basic fabrication techniques. The class will cover soldering, stone setting, and patinas. Class size is limited. Lab fee will be determined by project. Sign up and learn how to create your own jewelry or metalsmithing project! Contact Kristian with any questions. \$35 Lab fee.

Kristian Damholt earned his B.F.A in Metalsmithing at Earlham College, and has continued his study with professionals in the Chicago area. He now does freelance metalwork, and teaches Jewelry and Metalsmithing at the Fire Arts Center.

Introduction to Metal Casting & Jewelry Casting

Instructor: Vincent Hawkins

6:30-9:30pm

Sa/Su: 12-3 or 3-6

\$100 for 4 weeks

Classes are limited to 5 students

Using either carving or rubber molding techniques, small complicated designs are easily realized in any variety of metal including copper, silver, bronze, or pewter. This class serves as a complete overview of the metal casting process. Leads directly into Bronze Casting and Foundry I, both beginning in February. \$35 Lab fee.

Vincent Hawkins received his M.F.A. from the School of the Art Institute of Chicago, and his B.F.A. from Temple University in Philadelphia. He studied figure sculpture and painting with sculptor Paolo Corisone at the Tyler School of Art in Rome, Italy. Mr. Hawkins has been working exclusively with the figure for over 20 years. He currently teaches in the Department of Medical Ethics and Humanities at Northwestern University, as well as the Fire Arts Center of Chicago and the Evanston Art Center.
